

# DANISH:CARE

Trade Association for Assistive Technology

Danish.Care is the Danish trade association for manufacturers and suppliers of assistive technology, carettech solutions, and related services, representing more than 140 member companies.

Join Danish.Care and become part of a strong industry community delivering welfare solutions that benefit people and society.

## How we support our members

### Public procurement and domestic market

We strive to create better conditions for the sale and implementation of solutions in Denmark, e.g. by engaging in dialogue with public procurement organizations.

### Networking and knowledge sharing

We facilitate professional networks, policy groups, and member meetings - for example, procurement seminars - where experiences and contacts are shared across the industry, municipalities, regions, and other stakeholders.

### Policy and visibility

As a member, you contribute to our political advocacy and policy work. We raise awareness of the industry's solutions and collaborate with decision-makers and professionals on current challenges.

### Export advisory and promotion

Export has been one of our core tasks since 1981. As a member, you have influence on the industry's export activities, including international trade fairs and delegations. We work closely with the Trade Council and apply for funding for joint activities.

... and much more.

# Danish.Care is the association behind:

## **Health & Rehab by Danish.Care**

Danish.Care organizes Health & Rehab, Northern Europe's leading trade fair for assistive technology, held every two years at Bella Center Copenhagen. In 2025, the fair attracted more than 7,600 visitors. Membership provides influence on the fair's development as well as discounts on exhibition space.

## **CareNet - the Danish network for health and assistive technology**

CareNet is an active knowledge network that highlights the development, application, and implementation of health and assistive technology for care and rehabilitation. The network aims to create interaction, synergy, and innovation between stakeholders and end users across Denmark. No one knows the Danish municipalities and regions like CareNet.

## **Velfærdsteknologi anno 20XX - assistive technology conference**

CareNet and Danish.Care hosts the largest annual conference on assistive technology and healthcare solutions. We bring together industry, decision-makers, and professionals for a full day of knowledge, networking, and exchange of experiences. The focus is on new trends, solutions, and challenges within assistive technology and how technology can help secure the welfare solutions of the future.
